

Business ConneCT Operator

Better service and satisfied customers

Operator

UNIVERGE® Business ConneCT, NEC's versatile all-in-one Unified Communications & Collaboration (UC&C) suite, integrates all communication streams and presents them in a single view, giving employees control over how and when to be contacted, via a choice of devices – in the office, at home and on the move. Business ConneCT includes call control, presence, voicemail, operator and directory services, as well as a comprehensive contact center.

Cost Reduction by a more efficient use of existing operator staff

- > Any employee can act as Operator and can assist at peak hours;
- > Reduced need for dedicated Operator staff.

More incoming calls handled in a single response

- > Fast call handling through an integrated directory and intuitive user interface;
- > All call and presence information in one overview.

Adequate response to incoming calls lead to revenue growth

- > Optimal and friendly customer response;
- > Reduced waiting times; more customers serviced.

Improved service levels and satisfied customers

- > VIP caller priority routing, reduced waiting time; professional and personal service;
- > Providing the best customer experience. Real-time monitoring and historical reporting for improved efficiency of your operator staff and detailed insight into Operator performance, waiting times or missed calls, will further improve the reachability of your organization.

Save time by instantly providing callers with the right information

- > Customers receive queue announcements, including call back options;
- > Presence management and Microsoft Outlook Calendar integration enable operators to inform customers adequately.

Reduce number of times a caller is transferred

- > Presence status of the destination known before transferring the call;
- > Alternative destinations instantly available;
- > Access to multimedia communication methods like SMS Text, DECT and instant messaging.

Reduce the number of fall back calls

- > Presence status of the destination ensures first time right.

Easy look and feel reduces operator training

- > One look and feel for all roles and an intuitive user interface;
- > Short learning curve.
